

Who We Are

CPM Group is a senior advisory firm with over 40 years of principal-led operations, specializing in large-scale program and project management, project finance, and financial engineering for government agencies, sovereign wealth entities, and major international developers across the GCC, MENA, the Levant, Africa, and the Americas. We bring direct, senior-level expertise — not junior staff — to every mandate.

Our principal has personally directed programs at the \$500M–\$2B scale, served as Owner's Representative to royal and sovereign clients, and holds active engineering licensure across multiple GCC jurisdictions. This is a practice built on relationships earned over decades — not introductions.

Key Credentials	
Established	CPM Founded 2005 40+ years of principal-led advisory across the GCC, MENA, Levant, Africa, and the Americas
Licensure	Active multi-jurisdiction engineering licensure across the GCC, MENA, Levant, Africa, and the Americas — full regional coverage, no mobilization delays
Team	Multi-national team with trilingual advisory capability — English, French & Arabic

Key Partners	Bechtel, KBR, Parsons, BAE Systems, US Army Corps of Engineers, Royal Support Engineers, HMQ, Royal Commission, National Guards

Our Operating Entities

Both CPM SARL and CPM FE Corp. deliver the full range of CPM Group advisory services:

PMO Advisory | Owner's Representative | EPC/EPCF Intermediary | Feasibility & Project Development
 | Program & Project Management | Corporate Restructuring Advisory

The distinction between entities lies exclusively in their financial capabilities, as set out below.

CPM SARL <i>Lebanon Est. 2005</i>	CPM FE Corp. <i>Canada Financial Engineering</i>
Financial Platform: – Licensed for Project Finance – Operates active lending platforms – Capital structuring and deployment – Corporate & financial restructuring	Financial Advisory: – Financial engineering & structuring advisory – Transaction architecture & documentation – Compliance & KYC/AML coordination

– Direct capital solutions across infrastructure, real estate, energy, and industrial sectors

– Capital stack analysis & structured finance review

– Advisory capacity only — does not lend or deploy capital

Entity Note: CPM Group encompasses several entities, among them CPM SARL (Lebanon, est. 2005) and CPM FE Corp. (Canada). The appropriate entity engages based on jurisdiction, mandate scope, and regulatory framework.

What We Do

PMO Advisory

Governance | Systems | Delivery

PMO setup, governance structuring, and program delivery turnaround for large developers and government agencies. We design the systems that keep mega-programs on time and on budget.

Owner's Representative

Your eyes and ears — protecting your interests

Independent technical representation on behalf of royal offices, sovereign funds, and government clients at every stage of delivery. Engagements are structured on a retainer or milestone basis; scope covers full program oversight, contractor interface, progress reporting, and direct representation to the principal.

Our principal's direct EPC and general contracting experience across Africa and the GCC means we engage contractors as equals — understanding their methodology, incentive structures, and claims strategies from the inside.

Project Finance & Restructuring

Licensed | Structured | Principal-led

CPM SARL is licensed for project finance and operates lending platforms that structure capital solutions across infrastructure, real estate, energy, and industrial development.

We also provide corporate and financial restructuring advisory — supporting distressed asset resolution, turnaround mandates, and capital stack reorganization for sovereign, institutional, and private clients.

EPC/EPCF Intermediary

Relationships that accelerate award timelines

Strategic intermediary connecting international EPC contractors, investors, and financiers with GCC and MENA programs. We leverage longstanding relationships to accelerate commercial structures and award timelines.

Financial Engineering

CPM FE Corp. — Canadian advisory platform

Transaction architecture, structured finance review, compliance and KYC/AML coordination, and capital stack analysis in support of complex financing arrangements. CPM FE acts in a pure advisory capacity — not as a lender or intermediary.

Feasibility & Project Development

Pre-investment | Risk framing | Go/No-Go

Pre-investment advisory for sovereign wealth vehicles, developers, and institutional investors. Includes technical feasibility, delivery strategy, risk framing, and structured go/no-go recommendations.

Representative Experience

- Owner's Representative, Royal Client — Major infrastructure and real estate program, Saudi Arabia
- Program Director — Saudi Ministry of Finance infrastructure initiatives
- Senior Advisory — Large-scale EPC and EPCF programs with Bechtel, KBR, Parsons, and BAE Systems
- GCC Infrastructure Programs — Active delivery oversight across Saudi Arabia, Qatar, UAE, Kuwait
- International Contractor Coordination — US Army Corps of Engineers joint program collaboration
- Levant & MENA Advisory — Program and project management, project finance, and restructuring advisory across Lebanon, Syria, Iraq, Jordan, and the broader Levant region
- Africa Program Delivery — Project finance, financial engineering, and selected EPC/general contracting oversight across Gambia, Zimbabwe, Congo, Ivory Coast, Nigeria, and the broader sub-Saharan region
- North American Structuring — Developer and investor advisory in Canada and the United States; cross-border financing linkage to GCC and MENA sovereign programs

Note: Specific project and client details provided under NDA upon engagement.
