Program & Project Management Advisory

CAPABILITY STATEMENT

GCC | MENA | Levant | Africa | Americas

DIVISION 1

ROBO DUCTOR[®] — DIVISION —

Robotic Inspection • HVAC Intelligence Indoor Air Quality Solutions

Robo Ductor delivers advanced robotic inspection, cleaning, and IAQ solutions for HVAC systems. Using proprietary robotics, AI-powered reporting, and NADCA-aligned methodologies, we help facilities improve system efficiency, air quality, compliance, and operational performance.

ROBOTIC TECHNOLOGY
Proprietary robotic platforms

AI-POWERED INSIGHTS
Automated reporting & actionable data

NADCA COMPLIANT
Industry-standard methodologies

OUR CAPABILITIES

Robotic Duct Inspection
High-definition video & image capture

Robotic Duct Cleaning
Advanced brushless & air-whip technology

Indoor Air Quality Testing
Air sampling, particle count & IAQ analysis

AI-Powered Reporting
Automated findings with actionable insights

HVAC System Assessment
Performance evaluation & compliance review

Preventive Maintenance Programs
Reduce downtime, extend asset life

INDUSTRIES WE SERVE

Healthcare

Hospitality

Airports

Commercial

Industrial

Education

Data Centres

Government

Retail

KEY BENEFITS

Improved Indoor Air Quality

Enhanced System Efficiency

Regulatory Compliance

Reduced Energy Consumption

Lower Operational Costs

Extended Asset Life

DIVISION 2

HOSPITALITY ENGINEERING — DIVISION —

Hospitality Technical Advisory Engineering • Design • Delivery

Built on 30+ years of hospitality engineering expertise through THTS, our division provides end-to-end technical advisory and engineering solutions for the hospitality and foodservice industry. From concept to operations, we deliver smart, efficient, and future-ready environments.

OUR CAPABILITIES

Concept & Feasibility Advisory
Market studies, FF&E planning, budgeting

Kitchen & Foodservice Design
Commercial kitchens, BOH & FOH planning

MEP Engineering & Coordination
Integrated, efficient & compliant solutions

Technical Due Diligence
Asset assessment, audits & risk analysis

Project Management & Supervision
Design management to on-site delivery

Commissioning & Handover
Quality assurance & operational readiness

Operational Advisory
Performance improvement & lifecycle support

INDUSTRIES WE SERVE

Hotels & Resorts

Restaurants

Catering

Cloud Kitchens

Healthcare

Leisure & Clubs

Education

Commercial

Institutional

KEY BENEFITS

Optimized Design & Functionality

Operational Efficiency

Cost Certainty

Regulatory Compliance

Quality Delivery

Sustainable Solutions
